

**Filter Machinery Specialist  
Design, Supply & Technical Support**

**Spin on Oil Fuel Filter Production Line  
(Key Point Equipment)**

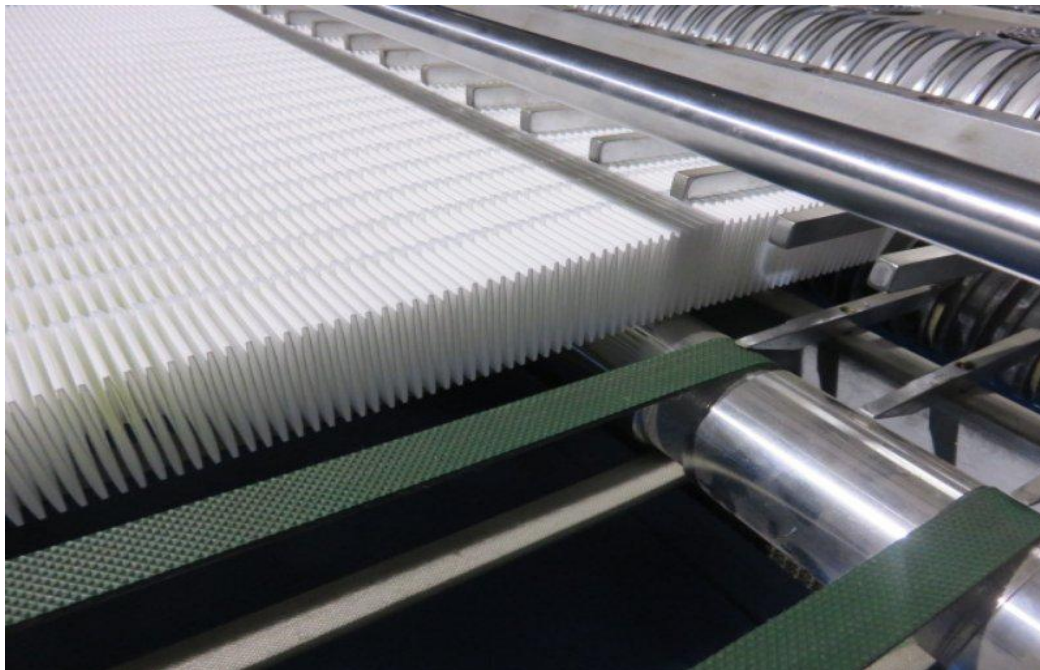

**Sun Hong Filter Machinery Co., Ltd**

## **Machine Solutions-Spin-on Fuel & Oil Filter Line**

### **1. Filter Paper Pleating -- SHKP 610**

**The knife pleating production line is used to pleat the filter paper, non-woven, active carbon etc, material for the auto filters industry, hydraulic filtration, purification and water treatment industries, etc.**

## **Machine Solutions-Spin-on Fuel & Oil Filter Line**

### **2. Hydraulic Stretching Machine -- SHHS 80/120**

**This machine is used to stretch the outer shell of the oil filter to increase the strength and durability of the shell.**

## Machine Solutions-Spin-on Fuel & Oil Filter Line

### 3. Spiral Tube Making Machine-- SHCT 350 II

This machine is used to manufacture the center tube for the oil, fuel and hydraulic filters. It can produce the perforated or louvered holes.

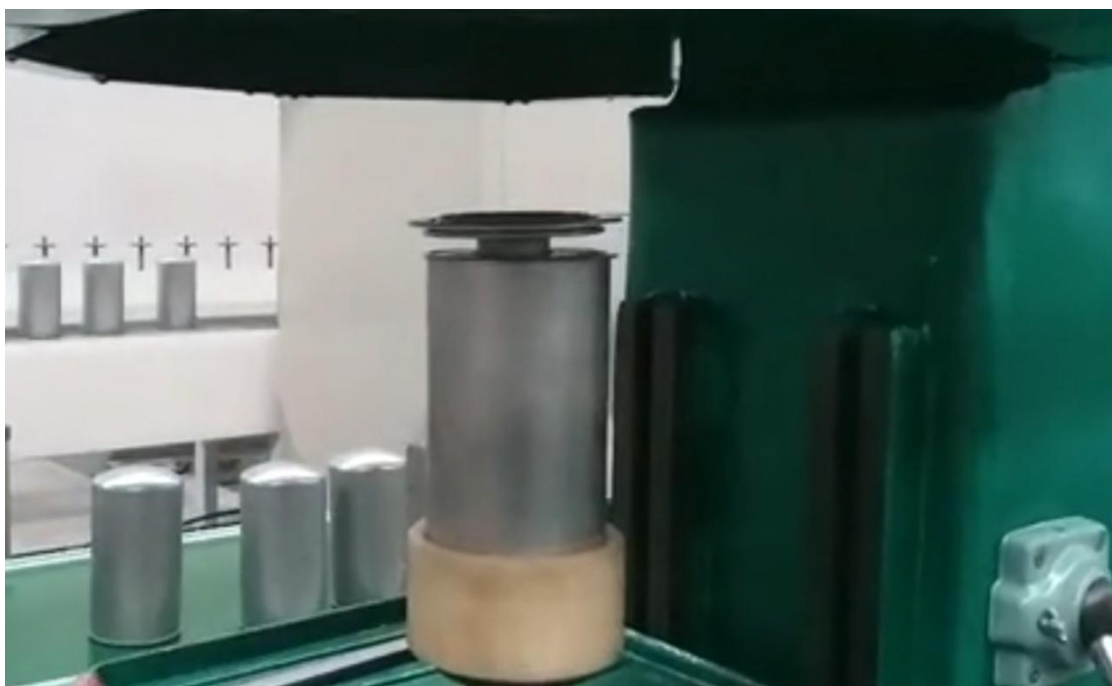

## **Machine Solutions-Spin-on Fuel & Oil Filter Line**

### **4. Spin on Filter Seaming Machine -- SHSM 20**

**It is used for spin on oil fuel filter or other metal container sealing.**

## **Machine Solutions-Spin-on Fuel & Oil Filter Line**

### **5. Automatic Silk Screen Printing Machine -- SHSP 45**

**This machine is used to print the shell of the spin on filters.**

## **Machine Solutions-Spin-on Fuel & Oil Filter Line**

### **6. Two Station Filter Air Leakage Tester -- SHLT 2**

**It is used for testing sealing performance of spin on filter.**

**These equipment just the key component for making spin on oil fuel filter. Other needed equipment and material you can buy in your country, or contact us we will help you to choose suitable one.**
